

# Exploring Vocal Arts

• SUMMER INTENSIVE 2022 •

JUNE  
13-19

An exciting new summer program for singers age 15-19 with daily voice lessons, master classes, seminars, and a final concert featuring students and the members of Echoing Air, a nationally known, professional Baroque ensemble.

*"I was able to learn how to put emotion into my song and tell a story. Along with the solo critique I enjoyed working with the staff. They were very musically skilled and gave great advice. Additionally, they were easy to work with and enjoyed talking about their own musical experiences which made my time at the camp even more enjoyable."*
